

(start belt #11)

to me it is just giving the Game Commission a little more authority over our private land. You can not build fences, it is almost impossible to build fences along the river so we build them across the river. I think that this case that Senator Skarda and Senator Syas has over the Missouri River, I wonder if they went to see the man that owns the land around this bayou, have you gone to see him?

PRESIDENT: Senator Skarda, do you care to respond?

SENATOR SKARDA: I happen to hunt with a fellow who is an ex-prize fighter and a professional wrestler, but he constantly sees us out there in that boat but he doesn't say anything. But let some guy come along with 4 or 5 kids and he runs them all out. That makes the difference, it is like the big tall highway patrolman and the little guy. It is who makes the determination is being made, and that is what exists up there and the this is just a poor thing and the fellow who the water up there of the Missouri River is cut, the banks are deep and it is kind of a cove for the people on a Sunday or Saturday to go in there with their family a place of shelter in case of a storm. It is just a natural place for people to be. By the way I never mentioned before but this fellow has a cable a quarter of a mile long across that part of the river, leases it for a professional hunting operation in the fall. It doesn't bother me, because I go in there irrespective.

PRESIDENT: Senator Nore.

SENATOR NORE: Do you have the facts that this fellow has run these families out?

SENATOR SKARDA: Senator Nore he has got a sign out there that says no trespassing as big as you are. You know what that no trespassing sign means.

SENATOR NORE: He probably has a good reason for it maybe...

SENATOR SKARDA: I'll take you up the river in one boat and see if he will run you out and I'll get in another one.

SENATOR NORE: If he has his whole lifetime investment in cattle around this lake, I think that he would want to protect him, and this is just a real small place over there on the Missouri and we are passing a piece of legislation that will cover the whole state, and I don't like it.

PRESIDENT: Any further discussion of LB565? Any further discussion? OK, then Senator Syas we are ready for your closing. Senator Syas is closing.

SENATOR SYAS: I think that it has been adequately debated and I renew my motion to advance.

PRESIDENT: Now the motion is to advance LB565 from General File to E & R initial. All those in favor of advancing the bill vote aye, those opposed vote no. You are voting on the advancement of 565 from General File to E & R Initial. Have you all voted?

SENATOR SYAS: I'll have to have a call of the house unfortunately because I see a lot of people are not here.
